11/30/2025 RSVP Camino de Manana Rescue #2- Barrels, small saguaros, mamms, hedgehogs

Scroll down to RSVP (if required for this activity) or click *Back* to return to directory.

Schedule

11/30/2025 Start time is 8 am Est end time is 11:30 am

We must leave plants onsite pending AZDA permit and tags next week

Activity Details

Mattamy Development Near Twin Peaks Phase 2 (Second rescue event)

We found many barrels, hedgehogs, and mamms at first rescue last Friday

Need to return on Sunday to finish digging the second and third areas. Rescuers found about 10 very small saguaros (4 to 12 inches tall), which can be taken home (once we get tags) and we might find more. We heard there are more barrel, and we certainly will find more mamms. These mamms are spectacular--tall, fat, and some in large clusters up to 15 inches in diameter.

--We will also prepare plants for tagging and transporting next Thursday.

General Location - Directions Are Emailed To You When RSVP Is Required.

Just off Twin Peaks Rd
